- Hopeful
- Kind

What is one goal you have set for the future?

I just accomplished a major one by graduating with my MBA from Syracuse University. My next would be to further my education one last time with a JD or a Ph.D.

If you could learn something new, what would it be?

I would take the time to learn a foreign language.

If you had a whole day to do whatever you wanted, what would you do?

Spend a day in culinary school and learn how to make different types of food.

What are some of your interests or hobbies?

I love to cook, read and host friends and families.

What are some adversities you faced in middle school or high school? (i.e. bullying, peer pressure, drugs, alcohol, etc.) How did you handle these adversities?

Being in foster care. Dealing with this set me aside from other kids because of boundaries set by the state and it was tough feeling like I was different than kids who came from "normal" families.

If you could tell your younger self any piece of advice, what would it be and why?

I would try not to be too hard on myself. Life is full of so many wonderful things...with patience and hard work, one will get to experience far more joy than they know in the current moment.
